

Herd Share Member Letter

Happy May from New Dawn Acres!

Great news for this summertime heat! Starting in May, Dark Choco Gelato and Vanilla Gelato will be available to order again at most of our drop locations! These gelatos are made with our A2/A2 milk and natural demarara sugar, and they are super delicious! Some might say it is the perfect dessert on a warm summer day. And I would have to agree!

Although our goat milk is currently in plentiful supply, our cow milk is at our lowest volume of the year. This is because several of our milkers have been dried off in preparation for calves to be born. This break is very important for the health of our animals but has temporarily caused a noticeable decline in our cow milk supply. As a result, there will be a few necessary accommodations to ensure all fluid milk orders for our herd share members can still be filled during this time. First, we have started a waitlist for all new cow milk customers. Second, we will not be able to offer any Feature Cheeses in May. And third, for the products we make from cow milk we may need to supplement raw A2/A2 Jersey milk from a partner dairy, Homeland Jerseys, to fulfill product orders. Please know this last accommodation will only be done if necessary and will not be for any fluid cow milk that you order in half-gallon jars. And rest assured that we will let you know when calves are born on our farm and our cow milk volume is back in plentiful supply!

We have been blessed to offer local, raw honey at many of our drop locations for a long time. But, right now we are currently waiting on the bees to produce a little more before we will have a consistent supply of this amazing honey again. So, for now, Honey has temporarily been removed from the order sheets. For some of you, we know this specific honey is your favorite honey ever, so we will definitely let you know when you can order it again!

As always, thank you so much for your loyal support of New Dawn Acres and the healthful, A2/A2 milk and products we work hard to provide every week!

All the best!
